How To Verify Your Identity On A Video Call

Why Am I Seeing This?

ID.me's primary identity verification process consists of several automated checks to protect against identity fraud. However, some people – through no fault of their own – can't get past these checks. There are a number of reasons people might run into issues, including:

1. ID document photo may be blurry or shadowed
2. Data sources – like credit bureaus – may have incorrect or outdated information
3. Credit may be nonexistent or frozen
4. Phone number may not be associated with your name

What You'll Need:

Two primary IDs OR one primary and two secondary IDs

For a list of valid documents, [click here](#).

A smartphone or tablet to take photos

Ability to join a video call
(computer with webcam or phone with camera)

If you're not ready, you can save your progress and return later.

Follow These Steps:

YOU'RE ALMOST THERE
